TROOPS LEAVING.

The People of Oklahoma Getting Down to Business.

DISPUTANTS COMPROMISING THEIR DIFFICULTIES.

Guthrie and Oklahoma City Each Have at Least Fifty Buildings Erected—Railroads Busy Handling Supplies—But Little Plowing Done as the Season Is Too Far Advanced—The Situation Promising.

LEAVENWORTH, May 3.—Gen. Merritt and the members of his staff arrived at Fort Leavenworth Wednesday evening from Oklahoma. The troops will undoubtedly return this week. Company D, of the Sixth Infantry arrived Wednesday evening from Fort Lewis, Col.

SURVEYORS BUSY.

GUTHRIE, L. T., May 3.—The surveyors engaged in laying out anew the Guthrie town site have succeeded in locating the exterior corners of the business quarter, and Mayor Dyer at once issued an order to all property owners to make their lots conform to the lines laid down.

The official survey will not be completed before Saturday and in the meantime the representative men of Guthrie will do their utmost to make the crisis of short duration when it does come. The past few days have wrought many changes in both Guthrie and Oklahoma City.

At least fifty buildings have been erected in each place, all of them wooden, with the traditional square front. Two banks are doing business in Guthrie, and a third will be in operation this week. Supplies are being hauled in by the railroads, and board and lodgings may now be secured for a reasonable sum.

The buildings are erected so that they may be easily moved, and upon the conclusion of the survey a general shifting of locations may be looked for. In three or four weeks both towns will have reached a point when predictions as to their future can be made with greater certainty.

The work of settling claims is proceeding rapidly, but there are few indications that settlers will do much toward improving lands this year.

Between Guthrie and Kingfisher there are not more than a dozen claims on which plowing has been begun. The fact is the season is too far advanced to promise any decent reward for labor this spring, and many of the settlers have gone to Guthrie, Oklahoma City or Kingfisher, where there is a demand for men and teams in hauling freight.

Oklahoma City has settled its differences arising from claim jumping, and the people there profess to view the general situation with great satisfaction.

Must Get Off the Strip.

FORT RENO, L. T., May 3.—Capt. Hall and a company of cavalry left Kingfisher Wednesday to eject settlers from the Cherokee strip, and a company also left Guthrie for the same purpose. Several hundred settlers are now on the strip.

They are determined men who have staked everything on the Oklahoma opening, and, failing to get their claims, have gone to the strip. No organized resistance to the military is expected, but cases of individual resistance and a large amount of hardship and suffering are certain to ensue.

At the War Department.

WASHINGTON, May 3.—The following telegram has been received at the war department from Gen. Crook's headquarters at Chicago: "The following received from Gen. Merritt: 'Everything continues quiet. Local town governments are practically established. I propose to visit Cherokee outlet, and after arranging matters there to return to headquarters at Leavenworth, if there are no other instructions.'"

GREAT SCHEME.

How Buffalo Bill Gets Free Advertising in the Paris Papers.

PARIS, May 3.—Of all the excitement to which the Parisian world is looking forward in connection with the exposition, one of the greatest is Buffalo Bill's Wild West show. Bill has shown a good deal of ingenuity in his advertisements.

He has stuffed the French papers with stories of the "corporation of New York capitalists" by which the show has been organized and conducted. The show itself is said to be under the government of the United States. Red Shirt and Rockery Bear (which perhaps means Rocky Bear) are described as renowned chiefs of the red race in America and lineal descendants of the heroes of the "Last of the Mohicans."

All this advertisement and more of the same sort the Paris papers publish gratuitously, to Bill's entire present satisfaction and probably his large future profit. One way and another he has induced the Parisian authorities and the municipality of Neuilly to grant him an excellent place for his show close by the Mailot gate, and all Paris is agog to see the "ethnographic spectacle" which Col. Cody is to present before them. The Wild West will certainly not be a disappointment.

AL ABAMIAN'S HUSTLING.

Telling Yankees About the Great Future of Their State.

NEW YORK, May 3.—A party of five men passed through New York recently on their way to New England to explain to capitalists and manufacturers there the natural advantages of northern Alabama, and especially of Florence, as a field of investment. They were Gen. James A. Walker, ex-lieutenant governor of Virginia, and Maj. J. C. Greenwood, of Wytheville, Va. Judges William A. Hudson, William H. Bolling, and S. J. Graham, of Florence, Ala. They spent several days in Philadelphia, and as a result a \$400,000 cotton mill will be built in Florence by J. P. Jones, with Philadelphia

capital. The party will visit Hartford, Fall River, New Bedford and Boston, and a number of other New England cities.

Judge Hudson, in speaking of the objects of their visit, said: "We are working to build up the industries of northern Alabama and the south generally. We are rich in the gifts of nature, but lacking the capital and experience to erect factories, we are seeking them in the north. The iron markets of the south control the trade at Pittsburgh, and the lower grades of cotton goods made in Alabama are sold in Lowell in competition with the goods made there. Labor is from 30 to 50 per cent. cheaper in Florence than in Lowell, yet the cost of living is so much less that the mechanic can do better in the end on the smaller wages. To capitalists who will establish factories in Florence we offer a ten years' exemption from local taxation, ample building sites, and besides, we loan them money or take part of their stock. All these advantages make it possible for a well managed cotton or iron mill to yield an annual dividend of from 10 to 20 per cent. Another branch of industry that will yield large profits is making of furniture and other wooden articles. Way, at home I sleep in a bed the wood of which was cut in Alabama, shipped to Grand Rapids, Mich., made into a bed, and shipped back to Florence. There are hundreds of thousands of acres of walnut and other trees there in which the ax of the woodman has never been heard, and fine marble quarries are right at hand."

In answer to a question about the views of the members of the party on the tariff, Judge Hudson laughingly said that their trip had nothing to do with politics, but that they were all strong protectionists.

VETERANS MAD

At Being Put at the Tail End—Their Badge Disgraced.

NEW YORK, May 3.—Commander-in-chief of the Grand Army of the Republic, Maj. William Warner, of Kansas City, was the chief guest at a reception and camp-fire in the Harlem River park Wednesday. Maj. Warner made a speech.

"The time will come," he said, "when the Grand Army of the Republic will not be relegated to the rear ranks, as they were in the procession in this city yesterday."

As to the distribution of Federal patronage, Commander Warner said: "Let no Grand Army man put himself in the position of a supplicant or beggar in demanding his rights."

Col. D. V. Quick read an article from a morning paper which stated that Col. Drake, of Drake's zouaves, Elizabeth, met Governor Gordon, whom he fought against in the war, and took off his Grand Army badge and pinned it on Governor Gordon's breast, his staff following his example, and pinned their badges on the breasts of Governor Gordon's staff. Hisses and groans were heard on all sides. Past Department Commander Burrows, of New Jersey, sprang to his feet.

"I am thunderstruck," he said. "Any man who disgraces the Grand Army badge in that manner is not fit to be called a comrade. In forty-eight hours from now I will have this matter investigated, and if I find that the article read is true, he shall be court-martialed and expelled from the Grand Army."

Col. Quick said: "No citizen, however loyal he may have been, can, in honor, wear that badge, much less one that fought against us. Any man who, for the sake of notoriety and mock sentimentality, would pin a Grand Army badge on a man who fought against the Union, is unworthy to be a member of the order, and does not know its first principles."

ELMER SHARKEY CONVICTED

Of Murdering His Mother at Eaton, Ohio.

EATON, O., May 3.—The case of the state of Ohio against Elmer L. Sharkey, aged 22 years, indicted for murder in the first degree for the killing of his mother, Caroline Sharkey, on the night of January 11 last, was commenced on Monday, the 22d ult., and was concluded by the jury returning a verdict of guilty of murder in the first degree. The defense was made on the ground of insanity, but it failed, notwithstanding insanity was shown to have been in the mother and several other relatives.

The Bantam Championship.

NEW YORK, May 3.—Billy Murray and Jack Lyman, two bantams, fought for the championship of the world, at 110 pounds, at a point on the Long Island sound, a short distance from New York. The winner was to receive a purse of \$250 and the stakes, \$300 a side. Lyman was knocked out in the thirty-ninth round, both his eyes having been closed. The fight lasted two hours and a half. Murray was awarded first knock-down and first blood.

"Jack the Huggar."

TIPTON, Ind., May 3.—During the past few days an unknown man has been prowling about our streets after nightfall seeming to have a mania for hugging women. He conceals himself behind trees and lays in wait for women who chance to be passing. Tuesday night he attempted to catch a couple of ladies about 9 o'clock, but was frightened away. He is described as a tall man with dark whiskers, and the authorities think they have him located.

The Moral Wave Strikes Indianapolis.

INDIANAPOLIS, Ind., May 3.—Reform has seized upon the police commissioners, and Wednesday night orders were issued directing the immediate suppression of gambling and ill-fame houses and a stricter observance of the liquor laws, more particularly closing saloons at 11 p. m. and Sundays. There is great alarm with the sporting fraternity, although the order is largely looked upon as the usual bluff.

The Weather.

Indications—Fair; except local showers on the lake; stationary temperature; northerly winds.

Special prediction: The general weather conditions indicate that fair weather will continue in the gulf states during Friday and Saturday, with a slight rise in temperature; fair weather is also indicated for the central valleys, New York and New England during Thursday and Friday.

WASHINGTON.

The Secretary of War to Take a Trip Through the West

TO INSPECT THE MILITARY POSTS AND PRISONS.

Our Minister to Spain Granted Leave of Absence to Visit the Paris Exposition. The President Respects a Colored Murderer—Secretary Blaine Considerably Improved.

WASHINGTON, May 3.—Secretary Proctor, who returned from New York Wednesday night will leave Saturday morning for a trip of a fortnight through the west. He will inspect the military prison at Fort Leavenworth, Kan., and the military posts at Denver, Cheyenne, Omaha, St. Paul and Chicago. Adj. Gen. Drum, Col. Barr, the military secretary and Private Secretary Partridge will accompany him. Gen. Schofield will join the party at Chicago.

Will Visit the Exposition.

WASHINGTON, May 3.—The state department has granted to Mr. Perry Belmont, United States Minister to Spain, leave of absence for the purpose of attending the opening ceremonies of the Paris exposition, to which he has been officially invited by the French government.

Mr. Belmont was chairman of the house committee on foreign affairs which reported the bill in these proceedings, and in the accompanying report he referred pointedly to the political significance of the occasion. In his cablegram asking leave of absence for the purpose indicated, Mr. Belmont states his intention to return to Madrid after the ceremonies to receive and show proper courtesy to Senator Palmer, his successor.

Secretary Proctor's Private Secretary.

WASHINGTON, May 3.—Mr. F. C. Partridge, of Proctor, Vt., has been appointed private secretary to the secretary of war, with whom he has had confidential relations since his connection with the Vermont Marble company, of which Mr. Proctor is president. Capt. Morse, who has filled this position since Mr. Proctor became secretary of war, will return to Vermont and resume his former position with the marble company.

Respected by the President.

WASHINGTON, May 3.—The president has respected Nelson Colbert, a colored man who was to have been hanged here for the murder of Peter Wotzel, until May 17. The district supreme court Wednesday denied Colbert's appeal for a new trial, and the papers were only received by the president to-day. Owing to the limited time he would have to examine them, the execution is postponed.

Anticipates No Trouble.

WASHINGTON, May 3.—The War department officials do not anticipate any trouble in Oklahoma. They think that the local government is sufficiently strong to preserve peace. Gen. Merritt has returned with his command to Leavenworth, Kan.

Blaine Improving.

WASHINGTON, May 3.—Secretary Blaine still keeps indoors at the Normandie. Walker Blaine says, however, that he expects the secretary will be at his desk at the state department in a day or two.

CHICAGO'S CENTURY CLUB.

"Old Hutch" Stands on the Sidewalk and Auctions Off the Furniture.

CHICAGO, May 3.—"Old Hutch's" Century club went off with the first century of the American constitution. Tuesday morning he moved all the furniture out on the sidewalk, and while everybody else was buying flags the great wheat corner was selling green baize tables with "rake off" holes in the top, sideboards with empty seltzer bottles in them, and bar fixtures with divers bung starters, cork lifters and sirup bottles. The restaurant tables, crockery, plate and other pork-and-bean attachments were hawked on the sidewalk with no license except the old gentleman's nerve. Every person who passed was asked if he did not want some elegant furniture at "less than half price." Mr. Hutchinson got rid of his furniture at a handsome figure. He will pay a dividend to the members. Thus perished the Century club, the only pet project to which the twenty-millionaire ever gave his secret heart.

IDENTIFYING THE DEAD.

Thirteen of the Grand Trunk Railroad Victims Recognized.

HAMILTON, Ont., May 3.—The remains of two more charred victims of the Grand Trunk wreck have been identified and taken away. They were those of Morgan R. Soulen, of Chicago, which were identified by a Colan, and those of H. S. Hall, an old retired merchant, of Evansville, which were identified by his son-in-law.

Henry Pringle, of Chicago, is reported missing. The remains of Mrs. George Grummetts will be sent to Chicago tomorrow. It is almost certain that Charles J. C. Frazer, of Toronto; J. L. Curmick, of Chicago, and J. B. Sterns, of Camden, Maine, are among the dead. Thirteen dead are thus far accounted for, leaving six bodies about which no inquiries have been made.

WEDDED THE EIGHTH TIME.

An Indiana Farmer Who Does Not Believe Marriage a Failure.

FORT WAYNE, Ind., May 3.—Aurelius Payne, a prominent and wealthy farmer of this city, aged 62 years, was married Wednesday by Justice France to his eighth wife, Miss Alice Culewan, aged 27. He has buried six wives and was divorced from the seventh.

Peculiar Heavenly Phenomenon.

ST. LOUIS, Mo., May 3.—A peculiar heavenly phenomenon was seen here Wednesday evening. The sky was perfectly clear, except for a long, black cloud in the western horizon from which protruded immense pillars of fire.

AN INSULT.

Our Flag Forcibly Hauled Down by Canadians on the Fourth of July.

OTTAWA, Ont., May 3.—An unexpected international complication threatens to arise out of the Bridgewater business. The ministry are mad about the blunt and plain-speaking way in which Capt. J. H. Allen when here maintained his right to compensation as owner of an American ship seized illegally.

They have resolved to do nothing in the matter, and if the international questions raised on the American side are to be maintained it will have to be done by resolute action. Before leaving Ottawa Capt. Allen stated that after the Bridgewater was seized the crew ran up the stars and stripes on the Fourth of July. The Canadian officials, he alleges, required that the flag be hauled down, and none of the crew being willing to obey they hauled it down against Capt. Allen's protests.

Evidence of this is forthcoming, and will be submitted to the authorities at Washington. He says he did not press the matter before, as he feared it might cause a delay in the settlement he hoped to effect, but under present circumstances he has no alternative but to lay the insult to the American flag before the government of the United States.

A RARE CENTENNIAL RELIC.

The Flag Carried by General Wayne in the Northwest in 1792.

WABASH, Ind., May 3.—Dr. P. G. Moore, of this city is the owner of a rare centennial relic, which he hung to the breeze Tuesday, on the occasion of the celebration of the 100th anniversary of the inauguration of Washington. It is an American flag which was carried by Brig. Gen. Anthony Wayne in his expedition against the northwestern Indians in 1792.

The flag was until four years ago in the possession of Mary Dixon, of Miami county, a member of a band of Miami Indians. She inherited the flag from her mother. It was captured from Gen. Wayne by Mary Dixon's grandfather, who was a well known chief. The flag in size is three and one-half by five and one-half feet and is made of pure homespun linen, sewed with linen thread and double stitched. There were fifteen stripes and the colors all hold remarkably well. The field is six by twenty-four inches in size, and contains simply the inscription in antique capitals, put on with indelible ink: "A. Wayne, Commander-in-chief."

DOTY'S SIDE OF THE STORY.

He Did Not Know He Was Swinging an Anarchist Flag to the Breeze.

CHICAGO, May 3.—M. W. Doty, the man who was roughly handled by a mob because he swung out a piece of Anarchistic red material from his window, gives a different version of the affair. Seeing that his neighbors were decorating, he got out a red umbrella, which did duty last fall in Harrison and Morton parades, and, without a thought that it was the chosen color of the Anarchistic class, swung it from his window. When the crowd gathered and began to abuse him and call him an Anarchist, he refused to take the obnoxious bit of color in. That was how it came about that, when he coolly marched down into the angry crowd for the purpose of explaining matters, they would not listen to him and came near stringing him up.

CAPTAIN MURRELL.

Banqueted and Presented With Valuable Presents in Baltimore.

BALTIMORE, May 3.—Capt. Murrell, his officers and crew were again besieged yesterday and presented with medals in recognition of the rescue of the Danmarks passengers. The medals for the officers are of gold and the seamen's silver. Last night they were given a banquet on which occasion Capt. Murrell was presented with a silver ice pitcher.

Philadelphia sprung a surprise on everybody at the feast when J. W. Goodson, of that city, arose and in behalf of Philadelphia presented a check for \$2,500, the money to be divided between the officers and crew of the Missouri. He said the subscription in Philadelphia for them netted \$3,100, \$600 of it being used to purchase merit medals, which would be presented to the officers and crew on shipboard.

MEXICAN RIOT.

A Rumor That 200 People Were Killed at Guanajuato Recently.

SAN ANTONIO, Tex., May 3.—It is reported here that during a fight at Guanajuato, Mexico, arising from the imprisonment of five Jesuit priests, who had been delivering seditious sermons, and an attempt by the populace to rescue them, 200 of the people were killed by soldiers and policemen. The priests are still in jail.

The Prize Company of Ohio.

NEW YORK, May 3.—Company D, of the Eighth Ohio regiment, from Wooster, O., gave an exhibition drill in the rotunda of the Grand Central hotel Wednesday night as a compliment to Mr. Sprague, one of the proprietors, who formerly resided in that city. The rotunda was crowded with people, including many ladies, who enthusiastically applauded their many evolutions. Company D is one of the crack companies of its state, and has won many prizes in competitive drills. It is known as the "prize company of Ohio." Among those present were Governor Biggs, of Delaware, and staff; Gen. Banks, of Waltham, Mass., and John McSweeney, of Ohio.

Fetils of Telegraphy.

BIRMINGHAM, Ala., May 3.—At Jasper, Walker county, yesterday afternoon, during a severe thunder shower and electric storm, young Frank Hard, the local telegraph operator, was sitting at his desk when the lightning hit his wires, and the current, turning down the wires, passed through his body. He fell forward on the floor and expired in a few moments.

Congressman Townsend's Successor.

SHAWNEETOWN, Ill., May 3.—Judge J. R. Williams was nominated by the Democratic convention Wednesday evening to fill the vacancy occasioned by the death of R. W. Townsend, of the Nineteenth Illinois district.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

FRIDAY, MAY 3, 1899.

The news from Washington points to an early settlement of the fight for the Collectors in this district. The Louisville Commercial's correspondent says: "It is generally conceded that Goodloe will be given this place, though Snead and Hutchins are still in the field."

The New York World says Mr. Cleveland is a Presidential possibility, and intimates there is no one else for the Democracy to take up. The World ought to remember it will be two or three years yet before the party will be called on to take up any one. Time may bring about many changes before 1892.

REPUBLICANS have made 2,500 changes in the railway mail service since the 4th of March. The fact that the service was to be placed under the control of the Civil Service law May 1st stimulated them to extra exertions and they provided for as many of their hungry friends as possible before the day rolled 'round.

MR. JAMES B. MARTIN, of Barren, candidate for Clerk of the Court of Appeals, announces through the Courier-Journal that the convention ought to be held in Louisville, and not at Lexington.—Covington Commonwealth.

The party will hardly consult the wishes of any one candidate in selecting a place for the convention. Mr. Martin's choice in this matter may not be the choice of the many other aspirants.

The dispute at Frankfort between the Mayor and City Council terminated in a disgraceful fight. At the last meeting, the Mayor was present and arranged the councilmen for failing to perform their duties and doing acts that were revolutionary. The lie was finally passed with one of the members, and the two went at each other "a la Sullivan." The fighters were separated before any one was hurt.

Says the Cincinnati Enquirer: "As near as can be discovered the two most interesting figures in the New York parade were Simon B. Buckner, the ex-Confederate General, of Kentucky, and Joseph B. Foraker, the Don't Touch-a-Rebel-Flag Governor of Ohio. So we seem to grasp hands across the chasm, and the Ohio Valley, with Kentucky on the one side and Ohio on the other, takes the cake. And note the coincidence—both of these distinguished men have a B for their middle initials."

While there are a few places in this section where the farmers report plenty of tobacco plants, yet there is great complaint of the shortage. We think it very probable that not over half the number acres will be set in tobacco that was anticipated two months since.

The centennial was generally observed in this place. Services in the Presbyterian Church. Prayer by Elder Tindler, speeches by Benj. Longnecker, Dr. R. R. Wheatley and Prof. Milton Johnson, principal of the school. His speech brought down the house, and a big bouquet.

MINERVA.

Hoffman Lodge, I. O. G. T., meets at Masonic Hall every Saturday night.

KIND WORDS FROM DR. EATON.

What the Editor of the Western Recorder Says of the New Baptist Church.

The Western Recorder, published at Louisville, has a fine cut this week of Maysville's new Baptist Church. Dr. Eaton, one of the editors of the Recorder, preached the opening sermon, it will be remembered. In speaking of the church and the dedication he says:

"The building would do credit to any city in the land. The cost, aside from the lot, is \$25,000, and the work is a marvel of cheapness. The building committee have shown rare wisdom. Such an edifice would ordinarily have cost \$40,000. The new building stands on the site of the old one, which was built just fifty years ago. Among the contributors Sunday was Miss Emily Deatly, who was present and contributed in 1839.

"We never addressed a more inspiring congregation. At the close of the sermon we made an appeal to pay the floating debt incurred in building, and \$4,400 was contributed. Brother Z. T. Cody offered the prayer of dedication, and pastor R. B. Garrett feelingly thanked those present for their generosity. It was a proud day for the popular pastor, and for Mr. James H. Hall, Jr., chairman of the building committee, for Mr. A. R. Glascock and for the rest who had toiled so long and faithfully to bring this happy occasion to pass.

"The church is greatly indebted to the liberality of Mrs. Caroline Cox, by far the largest contributor to the building fund. The state of her health prevented her being present, but her benevolence was there and her name headed the list, although she had given generously three times before. She has none of that spirit which says, "I have done my part, let others do theirs; I will do no more." Rather is she willing to keep on doing so long as anything remains to be done.

"We heartily congratulate the Maysville Baptists on the happy issue of their long and severe struggle. Their success has been greater than they ventured to hope. The General Association never had better accommodations or met with a nobler people than they will find at Maysville in June."

I. O. O. F.—The members of Ringgold Lodge No. 27, I. O. O. F., are requested to meet at hall this evening at 7:30 o'clock to make arrangements to attend funeral of H. J. Evans.

The cattle that have fed the past winter at the distilleries in the West End have been sold to Lehman & Bro., of Baltimore, and will be sent to England. They were shipped to-day from this point by way of the C. and O. Railroad. There were 248 altogether in the lot, Thomas & Sharp selling 120, Calvert & Brannon 108 and Winter & Pickett 20. The price ranged from 3 to 3½ cents a pound.

Barn Burned.

The alarm of fire at three o'clock this morning was caused by the burning of Mr. A. Honan's tobacco barn on the Fleming pike. The building was destroyed, together with the contents consisting of several thousand pounds of tobacco. The tobacco was insured for \$600 in the London and Liverpool and Globe and there was a policy on the barn for \$600 in the Farmers' Home Mutual, of this county. The fire is thought to have been started by some tramp.

The Clerk's report showed that orders amounting to \$2,077.15 were drawn on the treasury last month.

Delia Carlisle, colored, was allowed \$7.25 for caring for Jim Jones.

Messrs. Wood and Saulsbury reported, in reference to preparing a new charter, that they had seen Hon. W. H. Wadsworth and L. W. Robertson, who agreed to do the work for \$500. Mr. Shackelford and others thought a new charter was needed, but not "\$500 worth." The matter was continued in hands of committee who were instructed to see other lawyers.

James Smith was granted permission to erect a double summer kitchen in rear of cottages on north side of Third street.

A motion was made to reduce the wharfage of the Pittsburg and Kanawha packets to 50 cents a landing. Mr. Wood and others opposed the reduction, but the motion was carried by a ye and nay vote of eight to five.

It was then moved and carried that free wharfage be granted to local packets

doing business between this city and points thirty miles distant.

An ordinance to regulate the running of the ferry-boat and the rates of ferriage to be charged was read. No one seemed to know anything about it or was willing to father the measure and it was tabled.

The committee reported in favor of enclosing and shedding a portion of the station house yard, at a cost of not to exceed \$500, to be used for a work house. Mr. Wood thought it was not needed. On motion the committee was discharged. The work was not ordered.

Mr. Saulsbury, of the Committee on Propositions, reported that said committee thought best not to adopt standard time.

The ordinance allowing saloon-keepers to keep open until 12 o'clock at night was read and passed.

C. T. Taylor was granted auctioneer's license.

The following petitions were granted: Q. A. Means; to erect a small one-story iron roof building in rear of his undertaking shop.

Martin Comer; to erect a frame addition to his residence on Fourth street.

N. Gollenstein; to transfer coffee house license to Karr & Co.

Mrs. Dora Hilen; to erect a two-story metal-roof frame cottage on corner of Union and Fourth streets.

Miss Mary Kirk; to erect a frame addition to her residence on south side of Third street, west of Sutton.

Julia A. Stockdale; to erect a frame addition to her dwelling on Walnut street, Fifth ward.

James Smith; to erect a small kitchen in rear of house on west side of Grave alley.

Mr. Poyntz moved that the city subscribe \$200 to the Maysville and Blue Run Turnpike Company to aid in building about one mile of pike along the river hill below town. He thought it was to the interest of the city to aid in giving the people of Charleston Bottom a good road to Maysville. The old pike had been rendered impassable by the slipping of the river bank and by the railroad, and much of the trade of that section was now going to Ripley. Messrs. Wood, Ficklin and Shackelford opposed the subscription, but Mr. Poyntz's motion was carried. Yeas 7; nays 6.

The Alms Committee was directed to restore Mrs. Craven to the "pension list." The question of sending Charles Rice and wife to the Alms House was referred to the Committee on Alms.

The Mayor and Marshal were directed to enforce the ordinance in reference to the running of the ferry boat. Mr. Wood argued that it was to the interest of Captain Power to make as many trips as possible. The boat should not be permitted to remain at a landing more than ten minutes.

Mr. Shackelford gave notice that he would, at next meeting, introduce ordinances to allow saloon-keepers to keep their places of business open all night and to do away with the police.

The report of the Board of Equalization was read. The total assessment this year as reported by Assessor Shepard amounts to \$2,288,565, an increase over his figures last year of \$32,585. The total increase by the Board this year is \$197,925. This makes the total increase over the Assessor's figures amount to \$230,510.

The council adjourned till Thursday, May 23rd, when it will meet to hear complaints against the action of the Board of Equalization.

THE CONFERENCE.

England's Attitude on the Samoan Question

NOT SO CLEARLY DEFINED AS IT WAS SOME TIME AGO.

She Seems Anxious to Court Favor With Germany Even If It Should Not Please the United States—Probability of Malietoa's Reinstatement as King of Samoa. Other Foreign News.

LONDON, May 3.—The Times has the following special from its Berlin correspondent:

"There is one thing less clear than some others connected with the conference sitting here, and that is the attitude of England to the Samoan question. At Washington England was decidedly in favor of the course suggested by Germany, and now there is nothing to show that she is not again disposed, if anything, to prove a little more complaisant to Germany than to the United States. If this be so, it will be thought a pity by those who expect the English government to know on which side its bread is buttered, and who rightly argue that England and her colonies have more both to hope and to fear from America, with her future developments, than from any other country under the sun.

No reason observers who are profoundly convinced that the cordial friendship of the United States is of much more value to England than is that of any state in the European system, from which Great Britain is becoming more and more detached by reason of her grateful growth into a colonial world power, with an ever-widening and brightening prospect. Imperial federation is the true foreign policy for England, argue the observers above referred to, and she has little or nothing to do now with affairs of the continent, but everything with her interest beyond the seas, and with the states and colonies affected by those interests.

She Has Nothing to Fear. From this point of view, therefore, it is somewhat puzzling to many to find Lord Salisbury laying such ostentatious stress on editorially cordial everywhere with Germany, from whom, it is properly considered, England has really nothing whatever to fear, and little or nothing to hope, and thus incurring a risk, slight though it may be in the present case, perhaps, of estranging the affection of those who, in certain circumstances, might prove to England as troublesome opponents as they could otherwise be staunch and useful friends. Not that the Samoan question itself is capable of producing the effects here alluded to, but at the same time its treatment by England ought not to be such as is calculated to ruffle the sensibilities of either Americans or Australian colonists whose disappointment could not possibly be counterpoised by any amount of gratitude.

On the part of Germany as between all Anglo-Saxon races, out of her and the German empire, the position of England is analogous to the attitude of Germany to Austria and Russia respectively, "between whom," said Prince Bismarck to Gortchakoff, at the congress of Berlin, "you must not force me to choose." I repeat that the issues involved in the Samoan question are by no means so very pregnant of high political consequences, but still the treatment of that question, in the opinion of some well qualified to judge, ought to be a test of the degree to which England has kept pace with the true principles of political expediency.

Malietoa Released. It is stated that the liberation of Malietoa, the deposed king of Samoa, has been voluntarily announced to the Samoan conference. It is supposed that this action on the part of Germany is the prelude to the reinstatement of Malietoa.

It is stated that a sub-committee of the Samoan conference has under consideration a plan for the future government of Samoa under a native ruler, with a tribunal to adjudicate the question of land tenure.

A Novel Advertising Conceit. PARIS, May 3.—A shrewd piece of advertising is to be done at the coming exposition by a certain savings bank in Paris. Its capital, estimated at 8,000,000 francs, is to be exhibited in the form of a column built of francs and five-franc pieces. The base of the column is to be four-and-a-half feet square and height over twenty-one feet. It is shrewdly suspected that the coins in the column will not be genuine, but imitations of good money, and it is as shrewdly suspected that counterfeit coin may represent counterfeit capital.

John Dillon in Australia. LONDON, May 3.—On Tuesday John Dillon addressed a monster meeting at Melbourne. One thousand persons subscribed to the Home Rule fund. Mr. Dillon is meeting with great success on his Australian trip.

Queen Victoria is said to be much relieved by the decree which turns the erstwhile Prince Alexander of Battenberg into plain Count Hartenau, and it is no doubt owing to her understanding, if not expressed, wish that his title was changed.

KANSAS CITY, May 3.—Mrs. J. M. Kellogg, wife of the attorney general of Missouri, was installed as first assistant attorney general Wednesday. She was admitted to practice eight years ago, and is a member of the State Bar association. For several years she was a partner in the law business of her husband.

PREHISTORIC.

Important Discoveries in Ancient Mounds Near Floyd, Iowa.

WATERLOO, Iowa, May 3.—Important discoveries have been made near Floyd, Iowa, of remains of the ancient mound builders. A circular mound thirty feet in diameter and about two feet high has been opened and five skeletons found. They were exceedingly well preserved, the earth having been very closely packed around them. Three of them were males, one a female and the fifth a babe.

The skull of the female is in a good state of preservation, and those who have made careful measurements of it say that it shows that the person belonged to the very lowest type of humanity. Archaeologists claim that the measurement shows inferiority even to the celebrated neanderthal skull. These bones are claimed to be the most perfect of any remains of the mound builders yet discovered. There are several other mounds near where this one was opened, and they will be examined in a few days.

At Rawson, O., John Messmore's saloon was destroyed for the second time by White Caps. He has begun to entertain a dim suspicion that he is not exactly popular in that community, and will act accordingly.

A Washington C. H. baby has been born with eyes in the top of its head. This constant appealing, prayerful gaze of the Ohio man toward the holders of high places is bound to result in future developments of some kind.

The Richmond, Va., locomotive works have been awarded the contract to construct the engines for the United States warship Texas. This is the first contract of the kind awarded to any southern manufacturer since the war. The bid was \$634,500.

While Joseph Evans, of Lowell, Mass., owner of the estate recently purchased by the state for an armory site, and some workmen were engaged in moving a barn from the place, the building fell, badly crushing Mr. Evans and Bartholomew Curry. Both will probably die.

The Green Springs, O., Times says: Glass workers drink more beer than any other class of men. There work is hot and exhausting for a short time, and they have become accustomed to swallow vast quantities of beer to refresh themselves. One glass blower's beer bill at Tiffin amounts to \$2 a day and he buys it by the quantity.

Miss Jessie Benning, of Peoria, Ill., shot herself Wednesday in the office of Mr. William Scott, with whom she had been keeping company for some time. A revolver supposed to contain only empty shells, but which held one bullet, was the cause of the probably fatal accident.

The Bourbon News says: "The latest spring styles in stockings, the ladies say, include all varieties of shades and colors known—the gaudier the shade the better. The solid colors and somber black are to be seen no more—in the show windows—and have gone entirely out. The new style is generally a dark background, covered with innumerable spots, stars and stripes. The foot is one solid color up to a little above the ankle, and from that point comes in a series of stripes, the last section being made up of stars or polka dots. Shoes with light tops to match the stockings are becoming very fashionable, and a great many can be seen on Fourth street, Cincinnati, any afternoon—if a man would think of looking for such things."

A general failure of the tobacco plants is reported in the vicinity of Aulick, Pendleton County.
